

Understanding the Ways to Emerge into Productive Human Beings

Radhika Kapur

Abstract: *The individuals, belonging to all occupations, communities and socio-economic backgrounds have one of the major goals of emerging into productive human beings. As a consequence, one will be well-prepared in terms of various factors that are necessary in doing well in one's job duties, achieving desired goals and objectives and meeting the expectations of individuals, within and outside the homes. Furthermore, one needs to be well-informed in terms of ways that are necessary in emerging into productive human beings. All types of ways are put into operation in a moral and ethical human beings and productive citizens of the country. One of the important aspects that needs to be taken into account is, positivity needs to be reinforced in all types of ways. Therefore, from the stage of early childhood, throughout the lives of the individuals, they need to be well-informed in terms of ways that would be facilitating in honing the trait of productivity. Furthermore, one needs to inculcate the traits of morality, ethics, diligence and conscientiousness. In addition, one needs to be well-prepared in terms of ways of overcoming all types of setbacks. These need to be prevented from giving rise to impediments within the course of putting into operation different types of job duties and responsibilities. The main concepts that are taken into account in this research paper are, understanding the meaning and significance of emerging into productive human beings, ways that are to be implemented in emerging into productive human beings and advantages of emerging into productive human beings.*

Keywords: *Effective, Emerge, Enhancement, Human Beings, Individuals, Productive, Skills, Ways*

I. INTRODUCTION

The individuals, belonging to all occupations, communities and socio-economic backgrounds have one of the major goals of bringing about improvements in their overall quality of lives. In order to achieve this goal, the individuals are required to be well-informed in terms of ways of emerging into productive human beings (Hein, & Florentine, 2017) [2]. The individuals, throughout their lives are required to implement communication processes in an effective manner. These need to be with individuals within and outside the homes. In other words, it is vital in one's personal and professional lives.

This is facilitating in augmenting knowledge and understanding in terms of various factors; exchanging different types of ideas and viewpoints; obtaining answers to all types of questions and clarifying doubts. Furthermore, one needs to be well-informed in terms of communication ethics, i.e. making use of polite language and decent words; treating others with respect and courtesy; making provision of factual information; depicting the traits of helpfulness and co-operation and possessing an approachable nature and an amiable attitude. Therefore, it can be stated, honing communication skills is essential in augmenting productivity.

The individuals, belonging to all communities and socio-economic backgrounds have recognized the meaning and significance of education. They have formed the viewpoint that education is the instrument, which not only imparts information in terms of academic subjects and lesson plans, but also in terms of ways that are necessary in emerging into moral and ethical human beings and productive citizens of the country. Hence, individuals are getting enrolled in educational institutions of all levels and acquiring education (Huitt, & Dawson, n.d.) [4]. The educators are putting into operation various types of teaching-learning methods, teaching-learning materials and instructional strategies in a manner, which are facilitating in augmenting the trait of productivity. One of the important aspects that needs to be taken into account is, the trait of productivity needs to be utilized in promoting well-being and goodwill of family and community members. As a consequence, individuals will render an important contribution in bringing about improvements in their overall standards of living. Therefore, acquiring education in educational institutions of all levels is considered to be vital in honing productivity levels among individuals.

A. Understanding the Meaning and Significance of Emerging into Productive Human Beings

In all types of occupations and fields, one needs to lead to up-gradation of motivation and concentration levels towards putting into operation different types of job duties and responsibilities. As a consequence, the mind-sets of the individuals get stimulated towards putting into operation different types of job duties and responsibilities. In all types of employment settings, all the members, belonging to all job positions in the hierarchy of the organizations need to be well-informed in terms of their job duties and responsibilities. Furthermore, one needs to augment information in terms of different types of methodologies and procedures to carry these out in a well-ordered and disciplined manner. The possession of adequate information in terms of different types of job duties and methodologies is regarded as vital in leading to up-gradation of motivation and concentration levels. This is

Understanding the Ways to Emerge into Productive Human Beings

facilitated, when individuals are productive. Therefore, individuals are able to acquire an efficient understanding of the meaning and significance of emerging into productive human beings, when they are leading to up-gradation of motivation and concentration levels.

Within personal and professional lives of the individuals, there are some job duties and responsibilities, which are put into operation on one's own, whereas, there are others, which are implemented through obtaining support and assistance from other individuals. Hence, it is necessary for individuals to form cordial and amiable terms and relationships with each other. In order to carry out this task, there are some factors that needs to be taken into account, i.e. making use of polite language and decent words; treating others with respect and courtesy; making provision of factual information; reinforcing the traits of efficiency, honesty and truthfulness; depicting the traits of helpfulness and co-operation and possessing an approachable nature and an amiable attitude. Furthermore, these are facilitating in honing productivity. As a consequence of acknowledging and implementing mutual understanding, one will be able to contribute in honing the trait of productivity. Furthermore, one will be able to incur the feelings of pleasure and contentment. Therefore, one is able to acquire an understanding of the meaning and significance of emerging into productive human beings, when cordial and amiable terms and relationships are formed with family and community members.

The individuals, throughout their lives need to put emphasis on acknowledging and implementing various factors, i.e. implementing effective communication processes; making wise and productive decisions; differentiating between various types of appropriate and inappropriate factors; reinforcing a constructive approach; forming positive viewpoints in terms of various factors and individuals, whom one is communicating and working with; augmenting different types of skills and abilities; possessing the abilities to work under stress; putting in efforts to one's best abilities; reinforcing the traits of efficiency, honesty and truthfulness; promoting well-being and goodwill of family and community members and leading to up-gradation of motivation and concentration levels towards work. As a consequence of acknowledging and implementing all these factors, one will render an important contribution in honing the trait of productivity. Therefore, an understanding of the meaning and significance of emerging into productive human beings is acquired, when individuals are acknowledging and implementing various factors.

B. Ways that are to be Implemented in Emerging into Productive Human Beings

An aimless life is a meaningless life. Hence, individuals, belonging to all occupations, communities and socio-economic backgrounds have different types of goals and objectives to achieve. These are, acquisition of good-quality education; getting engaged in employment opportunities; promoting enhancement of one's career prospects; augmenting various types of skills and abilities; forming an effective social circle, comprising of family and community members; travelling to different places within and outside the regions; managing financial, technical, material and

information resources; making provision of infrastructure, amenities and facilities; leading to up-gradation of overall personality traits and bringing about improvements in one's overall quality of lives. In order to achieve all types of goals and objectives, it is necessary for the individuals to emerge into productive human beings (Important Leadership Skills for Workplace Success, n.d.) [5].

From the stage of early childhood, throughout the lives of the individuals [6], they are required to augment information in terms of ways that are to be implemented in emerging into productive human beings [7]. All types of ways are required to be put into operation in a well-ordered and satisfactory manner [8]. In other words, positivity needs to be reinforced in all types of ways [9]. One of the important aspects that needs to be taken into account is, all types of ways are to be put into operation in a satisfactory manner [10]. Therefore, ways that are to be implemented in emerging into productive human beings are stated as follows:

C. Implementing Effective Communication Processes

The individuals, throughout their lives are required to implement communication processes in an effective manner. These need to be with individuals within and outside the homes. In other words, it is vital in one's personal and professional lives. The family members, relatives, friends, neighbors, educators, employers, supervisors, classmates and colleagues are individuals, with whom, communication processes are required to take place in a well-ordered manner. This is facilitating in augmenting knowledge and understanding in terms of various factors; exchanging different types of ideas and viewpoints; obtaining answers to all types of questions and clarifying doubts in terms of various types of subjects and concepts.

Furthermore, one needs to be well-informed in terms of communication ethics, i.e. making use of polite language and decent words; treating others with respect and courtesy; making provision of factual information; reinforcing the traits of honesty, efficiency and truthfulness; depicting the traits of helpfulness and co-operation and possessing an approachable nature and an amiable attitude. The communication processes takes place in a verbal and written form. Verbal communication takes place face to face or phone, whereas, written communication takes place through exchanging messages and emails. Hence, it can be stated, honing communication skills is essential in augmenting productivity. Therefore, implementing effective communication processes is regarded as one of the indispensable ways that are to be implemented in emerging into productive human beings.

II. ACQUIRING EDUCATION

Acquiring education is regarded as one of the major goals of individuals, belonging to all occupations, communities and socio-economic backgrounds. Education is the instrument, which not only imparts information in terms of academic subjects and lesson plans, but also in terms of ways that are necessary in emerging into moral and ethical human beings and productive citizens of the country. Hence, individuals are getting enrolled

in educational institutions of all levels and acquiring education. It is necessary for individuals to lead to up-gradation of motivation and concentration levels towards acquisition of education.

The educators are putting into operation various types of teaching-learning methods, teaching-learning materials and instructional strategies in a manner, which are facilitating in augmenting the trait of productivity. On the other hand, it is necessary for students as well to have access to these in leading to up-gradation of productivity in a satisfactory manner. One of the important aspects that needs to be taken into account is, the trait of productivity needs to be utilized in promoting well-being and goodwill of family and community members. As a consequence, individuals will render an important contribution in bringing about improvements in their overall standards of living. Hence, acquiring education in educational institutions of all levels is considered to be vital in honing productivity levels among individuals. Therefore, acquiring education is one of the significant ways that is to be implemented in emerging into productive human beings.

A. Getting Engaged in Employment Opportunities

Getting engaged in employment opportunities is regarded as one of the major goals of individuals, belonging to all communities and socio-economic backgrounds. In all types of employment settings, all the members, belonging to all job positions in the hierarchy of the organizations need to be well-informed in terms of their job duties and responsibilities. Furthermore, one needs to augment information in terms of different types of methodologies and procedures to carry these out in a well-organized and regimented manner. The possession of adequate information in terms of different types of job duties and methodologies is regarded as vital in emerging into productive human beings.

In some cases, the different types of job duties and responsibilities are required to be put into operation in an adequate manner. Hence, the trait of productivity needs to be honed. In cases of putting into operation various types of methodologies and procedures, one needs to ensure, he or she is productive. Furthermore, individuals need to augment the traits of morality, ethics, diligence and conscientiousness. Hence, getting engaged in different types of employment opportunities is regarded as one of the essential ways of honing the trait of productivity. Therefore, getting engaged in employment opportunities is an eminent way that is to be implemented in emerging into productive human beings.

B. Promoting Enhancement of Career Prospects

Promoting enhancement of career prospects is regarded as one of the indispensable goals of individuals, belonging to all occupations, communities and socio-economic backgrounds. In order to achieve this goal, one needs to be well-prepared. The individuals, belonging to all communities get enrolled in educational institutions of all levels and acquire education. Furthermore, one needs to get engaged in employment opportunities, suitable to them. Within all types of employment settings, one needs to be well-equipped in terms of different types of job duties. Furthermore, generating information in terms of different

types of methodologies is regarded as vital in emerging into productive human beings. In addition, individuals need to put emphasis on inculcating the traits of morality, ethics, diligence and conscientiousness. The acknowledgement and implementation of these traits is facilitating in doing well in one's job duties and generating desired outcomes.

In some cases, the different types of job duties and responsibilities are required to be put into operation in an adequate manner. Hence, the trait of productivity needs to be honed. In cases of putting into operation various types of methodologies and procedures, one needs to ensure, productivity is enhanced. Furthermore, individuals need to augment the traits of goodness, integrities, thoroughness and meticulousness. Hence, it is well-understood, promoting enhancement of career prospects is regarded as one of the essential ways of honing the trait of productivity. Therefore, promoting enhancement of career prospects is an expedient way that is to be implemented in emerging into productive human beings.

III. AUGMENTING SKILLS AND ABILITIES

From the stage of early childhood, throughout the lives of the individuals, they need to augment different types of skills and abilities. The different types of skills that need to be honed are, communication skills, decision-making skills, time-management skills, analytical skills, critical-thinking skills, problem-solving skills, personal skills, professional skills, presentation skills, technical skills, creative skills, intellectual skills, artistic skills, public-speaking skills, leadership skills and negotiation skills. On the other hand, abilities, which need to be honed are, convincing, persuasion, planning, organizing, directing, leading, controlling, co-ordinating, emotional intelligence, systems thinking, putting in efforts to one's best abilities, possessing the abilities to work under stress, coping with various types of dilemmas and challenging situations in an adequate manner and carrying out all types of job duties and responsibilities in a satisfactory manner.

The different types of skills and abilities are to be put into operation in one's personal and professional lives. These need to be put into operation in a well-ordered and regimented manner. One of the important aspects that needs to be taken into account is, these need to be approving in promoting well-being of oneself as well as family and community members. Furthermore, their up-gradation will contribute in an effective manner in honing the trait of productivity. Therefore, augmenting skills and abilities is a renowned way that is to be implemented in emerging into productive human beings.

A. Inculcating the Traits of Morality and Ethics

The individuals, throughout their lives need to put emphasis on inculcating the traits of morality and ethics. These are the traits, which are facilitating in differentiating between various types of appropriate and inappropriate factors; reinforcing a constructive approach; forming positive viewpoints in terms of various factors and individuals, whom one is communicating and working with; augmenting different types of skills and abilities; possessing

Understanding the Ways to Emerge into Productive Human Beings

the abilities to work under stress; putting in efforts to one's best abilities; reinforcing the traits of efficiency, honesty and truthfulness; promoting well-being and goodwill of family and community members; leading to up-gradation of motivation and concentration levels towards carrying out all types of tasks and activities in a satisfactory manner and being focused on generating desired outcomes. As a consequence of acknowledging and implementing all these factors, one will render an important contribution in honing the trait of productivity.

The traits of morality and ethics are required to be augmented in one's personal and professional lives. Furthermore, one will be able to augment the trait of productivity. There are some job duties and responsibilities, which are put into operation on one's own, whereas, there are others, which are implemented through obtaining support and assistance from other individuals. Hence, it is necessary for individuals to form cordial and amiable terms and relationships with each other. Furthermore, these are facilitating in honing productivity. Therefore, inculcating the traits of morality and ethics is a vital way that is to be implemented in emerging into productive human beings.

B. Implementing the Traits of Diligence, Resourcefulness and Conscientiousness

Implementing the traits of diligence, resourcefulness and conscientiousness is regarded as one of the major aspects, which individuals, belonging to all occupations, communities and socio-economic backgrounds are required to acknowledge. These are the traits, which are facilitating in generating information in terms of various types of job duties and responsibilities; being well-equipped in terms of various types of methodologies and procedures; generating information in terms of different types of pioneering methods and materials; augmenting different types of skills and abilities; possessing the abilities to work under stress; putting in efforts to one's best abilities; reinforcing the traits of efficiency, honesty and truthfulness; promoting well-being and goodwill of family and community members; leading to up-gradation of motivation and concentration levels towards carrying out all types of tasks and activities in a satisfactory manner and providing solutions to different types of problems and challenging situations. As a consequence of acknowledging and implementing all these factors, one will render an important contribution in augmenting productivity.

The traits of diligence, resourcefulness and conscientiousness are required to be augmented in one's personal and professional lives. Furthermore, one will be able to augment the trait of productivity. There are some job duties and responsibilities, which are put into operation on one's own, whereas, there are others, which are implemented through obtaining support and assistance from other individuals. Hence, it is necessary for individuals to develop mutual understanding with each other. Furthermore, these are facilitating in honing productivity. Therefore, implementing the traits of diligence, resourcefulness and conscientiousness is a crucial way that is to be implemented in emerging into productive human beings.

C. Reinforcing the Traits of Efficiency, Honesty and Truthfulness

From the stage of early childhood, throughout the lives of the individuals, they need to reinforce the traits of efficiency, honesty and truthfulness. As a consequence of acknowledging and implementing these traits, one will be able to contribute in honing the trait of productivity. Within and outside the homes, acknowledging and implementing these traits are regarded as the key in carrying out all types of tasks and activities in accordance to the expectations of others, including family and community members (Helpfulness, n.d.) [3].

These are the traits, which are facilitating in generating information in terms of various types of job duties and responsibilities; being well-equipped in terms of various types of methodologies and procedures; generating information in terms of different types of modern, scientific and innovative methods and materials; augmenting different types of skills and abilities; possessing the abilities to work under stress; putting in efforts to one's best abilities; reinforcing the traits of efficiency, honesty and truthfulness; promoting well-being and goodwill of family and community members; leading to up-gradation of motivation and concentration levels towards work and providing solutions to different types of problems and challenging situations. As a consequence of acknowledging and implementing all these factors, one will render an important contribution in augmenting productivity. Therefore, reinforcing the traits of efficiency, honesty and truthfulness is an advantageous way that is to be implemented in emerging into productive human beings.

D. Implementing Time-Management Skills

The individuals, belonging to all occupations, communities and socio-economic backgrounds need to be well-informed in terms of time-management skills. These are the traits, which are facilitating in taking out sufficient amount of time for all tasks and activities. The individuals assign priorities to the tasks. The tasks, which are more important are carried out first, whereas, the ones, which are less important are put into operation after the completion of more important ones. Procrastination is avoided. Hence, from the stage of early childhood, throughout the lives of the individuals, they need to be well-equipped in terms of time-management skills. These are the skills, which are facilitating in completing all types of job duties and responsibilities within the required time-frame.

As a consequence of acknowledging and implementing these skills, one will be able to contribute in honing the trait of productivity. Furthermore, one will be able to incur the feelings of pleasure and contentment. In addition, one will be able to contribute effectively in doing well in one's job duties; achieving desired goals and objectives and meeting the expectations of other individuals. Hence, in all occupations and fields, all members are required to lead to up-gradation of time-management skills. As a consequence, all types of job duties and responsibilities are put into operation in a satisfactory manner. Therefore, implementing time-management skills is a favorable way that is to be

implemented in emerging into productive human beings.

E. Developing Mutual Understanding with Others

Within personal and professional lives of the individuals, there are some job duties and responsibilities, which are put into operation on one's own, whereas, there are others, which are implemented through obtaining support and assistance from other individuals. Hence, it is necessary for individuals to develop mutual understanding with each other. In order to develop mutual understanding, there are some factors that needs to be taken into account, i.e. making use of polite language and decent words; treating others with respect and courtesy; making provision of factual information; reinforcing the traits of efficiency, honesty and truthfulness; depicting the traits of helpfulness and co-operation and possessing an approachable nature and an amiable attitude. Furthermore, these are facilitating in honing productivity.

As a consequence of acknowledging and implementing mutual understanding, one will be able to contribute in honing the trait of productivity. Furthermore, one will be able to incur the feelings of pleasure and contentment. In addition, one will be able to contribute effectively in doing well in one's job duties; achieving desired goals and objectives and meeting the expectations of other individuals. Hence, in all communities, individuals put emphasis on acknowledging the meaning and significance of development of mutual understanding with other individuals. Therefore, developing mutual understanding with others is a useful way that is to be implemented in emerging into productive human beings.

F. Advantages of Emerging into Productive Human Beings

The individuals are different from each other in terms of number of factors, i.e. castes, creeds, races, religions, genders, age groups, cultures, personality traits, educational qualifications, occupations, communities and socio-economic backgrounds. In spite of these differences, in order to be successful in their lives, they need to acknowledge the meaning and significance of productivity. Furthermore, one needs to put in efforts to one's best abilities in leading to up-gradation of trait of productivity (Health-Related Quality of Life, n.d.) [1].

The individuals, belonging to all occupations, communities and socio-economic backgrounds have one of the major goals of bringing about improvements in their overall personality traits and standards of living. In order to achieve this goal, the individuals are required to be well-informed in terms of ways of emerging into productive human beings. All types of ways are put into operation in a moral and ethical manner. Furthermore, one needs to be well-informed in terms of advantages of emerging into productive human beings, i.e. leading to up-gradation of motivation and concentration levels; promoting enhancement of career prospects; providing solutions to various types of problems; promoting family and community well-being and carrying out all types of job duties and responsibilities in a well-ordered manner. These are stated as follows:

G. Leading to Up-Gradation of Motivation and Concentration Levels

In all types of occupations and fields, one needs to lead to up-gradation of motivation and concentration levels towards putting into operation different types of job duties and responsibilities. As a consequence, the mind-sets of the individuals get stimulated towards putting into operation different types of job duties and responsibilities. In all types of employment settings, all the members, belonging to all job positions in the hierarchy of the organizations need to be well-informed in terms of their job duties and responsibilities. Furthermore, one needs to augment information in terms of different types of methodologies and procedures to carry these out in a well-organized and regimented manner. The possession of adequate information in terms of different types of job duties and methodologies is regarded as vital in leading to up-gradation of motivation and concentration levels. This is facilitated, when individuals are productive. Therefore, leading to up-gradation of motivation and concentration levels is regarded as one of the indispensable advantages of emerging into productive human beings.

IV. HONING PROFESSIONALISM

Honing professionalism is vital for individuals, belonging to all occupations, communities and socio-economic backgrounds. In order to achieve this goal, it is necessary for individuals to be well-informed in terms of various traits, i.e. morality, ethics, diligence, resourcefulness and conscientiousness. The acknowledgement and implementation of these traits is facilitating in doing well in one's job duties and generating desired outcomes. The individuals, belonging to all communities get enrolled in educational institutions of levels and acquire education. Furthermore, one needs to get engaged in employment opportunities, suitable to them. Within all types of employment settings, one needs to be well-equipped in terms of different types of job duties and methodologies that are to be put into operation in emerging into productive human beings. Hence, it is well-understood, as a consequence of acknowledging and implementing the trait of productivity, one will render an important contribution in honing professionalism. Furthermore, it is facilitating in promoting enhancement. Therefore, honing professionalism is one of the significant advantages of emerging into productive human beings.

A. Providing Solutions to various Types of Problems

Within personal and professional lives of the individuals, there are various factors in terms of which problems take place, i.e. job duties, responsibilities, methodologies, procedures, techniques, approaches, work pressure, lack of implementation of time-management skills, lack of analytical, critical-thinking and problem-solving skills, scarcity of financial, human, technical, material and information resources, lack of infrastructure, amenities and facilities and so forth. The influence of various types of problems and challenging situations is experienced in a major or minor form. As a consequence of honing the trait

Understanding the Ways to Emerge into Productive Human Beings

of productivity, one will be able to lead to up-gradation of problem-solving skills. These are the skills, which are facilitating in identifying the causes of all types of problems. After the causes are identified, one needs to provide solutions to these in an effective manner. Furthermore, these are prevented from giving rise to impediments within the course of putting into operation different types of job duties and responsibilities in an adequate manner. Therefore, providing solutions to various types of problems is an eminent advantage of emerging into productive human beings.

B. Promoting Family and Community Well-being

Promoting family and community well-being is regarded as one of the major goals of individuals, belonging to all professions. As a consequence of acknowledging and implementing the trait of productivity, one will render an important contribution in implementing all types of job duties and responsibilities in a manner, which is facilitating in promoting family and community well-being. The different types of competencies and abilities are to be put into operation in order to achieve this goal. Furthermore, these are required to be put into operation in a well-organized and regimented manner. One of the important aspects that needs to be taken into account is, these need to be approving in promoting well-being of oneself as well as family and community members. Furthermore, the individuals will contribute in a satisfactory manner in honing the traits of morality, ethics, diligence and conscientiousness. One of the important aspects is, honing these traits is facilitating in leading to progression. Furthermore, one will acquire appreciation and reverence from family and community members. Therefore, promoting family and community well-being is an expedient advantage of emerging into productive human beings.

C. Carrying out all Types of Job Duties and Responsibilities in a Well-Ordered Manner

Carrying out all types of job duties and responsibilities in a well-ordered manner is regarded as one of the major goals of individuals, belonging to all professions. As a consequence of acknowledging and implementing the trait of productivity, one will render an important contribution in implementing all types of job duties and responsibilities in a well-ordered manner. Furthermore, one will augment information in terms of various types of job duties and procedures that are necessary to carry these out. Furthermore, the individuals will contribute in a satisfactory manner in honing the traits of morality, ethics, diligence and conscientiousness. One of the important aspects is, honing these traits are facilitating in leading to progression. Furthermore, one will lead to up-gradation of motivation and concentration levels towards putting into operation different types of job duties and responsibilities. In addition, one will be well-prepared in terms of ways of coping with various types of dilemmas and challenging situations. Furthermore, these will be prevented from giving rise to impediments within the course of putting into operation various types of job duties and responsibilities. Therefore, carrying out all types of job duties and responsibilities in a well-ordered manner is a renowned advantage of emerging into productive human beings.

V. CONCLUSION

The individuals, belonging to all categories need to be aware of significance of emerging into productive human beings. Ways that are to be implemented in emerging into productive human beings are, implementing effective communication processes, acquiring education, getting engaged in employment opportunities, promoting enhancement of career prospects, augmenting skills and abilities, inculcating the traits of morality and ethics, implementing the traits of diligence, resourcefulness and conscientiousness, reinforcing the traits of efficiency, honesty and truthfulness, implementing time-management skills and developing mutual understanding with others. Advantages of emerging into productive human beings are, leading to up-gradation of motivation and concentration levels; honing professionalism; providing solutions to various types of problems; promoting family and community well-being and carrying out all types of job duties and responsibilities in a well-ordered manner. Finally, it can be stated, one needs to be productive throughout one's lives.
